**I thought we stopped all of this last year because of the poor economy. Nothing has really changed, why the rush to build now and what has changed so that we can?** Over the past ten years we have been building our infrastructure to get to the point where we can confidently proceed with a capital campaign that will enable us to move forward. We have investigated numerous options over the years and have determined the only real resolution is to build a new church on the Hanford Rd. property that was donated to the parish.

We now have a strong, stable, and healthy Pastoral team, strong finances; a growing offertory, a \$1,000,000 match, a capital campaign, and construction costs will never be any lower.
